To be Sold by Mail Auction
To the Highest Bidder Without Reserve

M. H. BOLENDER
P. O. Box 34, Orangeville, Illinois

TO COLLECTORS—Aren't my sales growing? Well, here we are again with over 450 varied lots containing something to interest any collector except the fossilized. The sale has some nice gold coins, hundreds of large cents including all dates, some choice paper money both U. S. and foreign, many Roman silver denarii in desirable condition, fine collection of British Hard Times Tokens, splendid foreign silver, various United States silver and copper, etc., etc.

Collectors of experience have found that not all dealers classify the condition of coins alike. I believe in holding the standards of condition high and shall deem it a favor if you will return at my expense anything which does not appear as described.

Here are just a few reasons why you should make your bids liberal:

(a) your bids will be more successful. Coins will be bought as much below your bids as possible. This is competetive bidding carried out in good faith. One customer writes, "This is the first time in 30 years of buying at auction that I received coins at less than my bids." I make a HABIT of sending out coins below your bids wherever I can do so. Remember, you get the coins at only a slight advance over the next highest bid, no matter how high your bid may be.

(b) If goods are not satisfactory (you are to be the judge), you are at liberty to return them at my expense without any danger of offending. This is a mighty strong guarantee. Thus, you can not lose a cent. Only two lots were returned from my last two sales.

(c) There is no commission charged for faithfully executing your bids. I take particular pride in serving each bidder just as if they were at the sale in person.

(d) If you have established credit or send references you have 30 days time to pay for coins.

(e) I have dozens of unsolicited te[illegible]'s like these: "The coins were all very [illegible] am very well pleased with what I [illegible] gret that I did not bid higher o[illegible]

"Coins were highly satisf[illegible] to send lists."

LET ME SELL YOUR [illegible] DUPLICATES IN THESE SA[illegible] satisfied just like the other [illegible] sell coins. Here is a letter [illegible] one: "Dear Mr. Bolender: Y[illegible] and checking list at hand f[illegible] thanks. I am more than ple[illegible] ness system." Write for te[illegible]
